

IAN K. FELIX

SOFTWARE ENGINEER

EXPERIENCE

Accenture Digital • 2018 - 2019

Management/Tech Consulting

Created the crucial communication bridge between tech and business teams. Worked mostly on React Native as well as coordinated crucial time sensitive meetings by keeping to the premeditated agenda.

SWiM Communications • 2019

Junior Full Stack Software Engineer

Performed backup, maintenance and security checks for a variety of clients. Tech stack used was Linux, Apache, MySQL and PHP Laravel.

Techreative • 2019 - 2024

Senior Full Stack Software Engineer

Built and maintained multiple platforms for large government bodies as well as smaller businesses. Simultaneously a project manager and a lead software dev, my day to day involves communicating progress to C-Level Execs while managing a team of devs to build projects from inception to completion. The simpler tasks were handed over to the junior devs whilst I would personally see to the more technically challenging ones. Tech stack over the years includes Python Django, Node.js/Meteor, React/Vue/Svelte as well as a range of cloud deployment solutions including Amazon Web Services .

EDUCATION

Monash University • 2015 - 2018

BEng of Software Engineering(Hons)
